

Chilean Carmenere

Since growers have started treating it with increasing respect, Carmenere has been on an upward trajectory in Chile – and the best is yet to come, reports Peter Richards MW

CARMENERE IS THE James Bond of wine grapes. It's mysterious, with a past shrouded in conjecture. No one knows how best to handle or contain it. It's often been on the ropes – for instance, when phylloxera virtually wiped it out in Bordeaux – but it has proved a dogged survivor, popping up in unexpected places. It goes under many pseudonyms, from 'Shelongzhu' (China) to 'Merlot Chileno' and (the best) 'Black Bordeaux' (Italy).

But it's Chile where the variety has made itself at home. After phylloxera, Bordeaux growers proved reluctant to replant Carmenere, because it was finicky, late-ripening and tricky to graft. But Chile was (and has remained) ostensibly phylloxera free and has the kind of warm, dry climate in which late-season reds can thrive. When Carmenere arrived in the mid-19th century, mixed plantings were the norm and somehow it was subsumed into the 'Merlot' category, known by growers as 'Chilean' or 'late' Merlot, and sold under the same moniker. Hence the distinctive, peppery style of Chilean 'Merlot'.

These days, Carmenere tends to be grown, made and promoted as a separate cultivar. Plantings have increased. And yet opinion within Chile remains divided. Many still believe Carmenere to be fundamentally limited, tricky to grow and good only for blends. Others point to Chile's short track-record with it and advise patience.

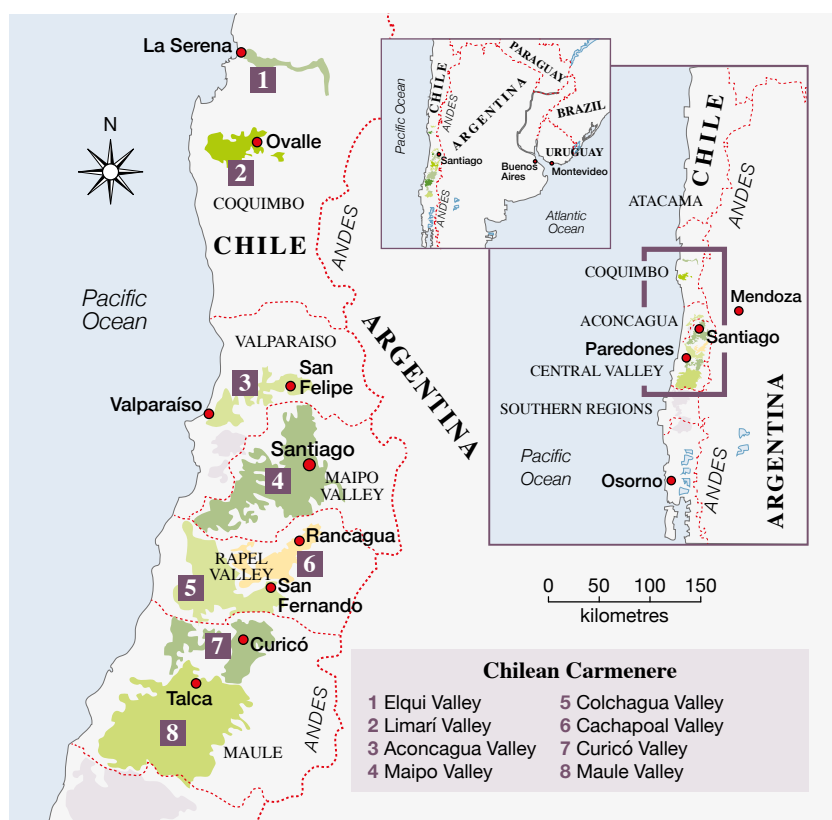

Rapid progress

Research has shed more light on the subject. Yerko Moreno at Talca University has provided answers to the long-standing questions about Carmenere's poor fruit set and clonal diversity. Casa Silva's micro-terroir project has provided guidance on Carmenere's most propitious microclimates (warm but with moderating influences) and soils (well-drained but not too fertile). Other growers are taking Carmenere out of what were traditionally deemed the best sites for it (hot, central valley sites on deep alluvial soils) and experimenting in markedly different terroirs, often with exciting results.

Central Colchagua and Cachapoal have long been Carmenere heartlands. Now though, it is spreading into cooler eastern (Andean) or western (Pacific-influenced) extremities. The likes of Elqui, Limarí, Aconcagua and Curicó are all finding success – while Maipo and Maule lead the field. Winemaking is increasingly nuanced, with less heavy-handed use of oak and extraction.

For now Carmenere remains a bit-player, but it attracts disproportionate interest and has many fans. For a country that often complains about lacking identity and narrative, Carmenere offers an intriguing back-story and potential for uniqueness.

Chilean Carmenere: know your vintages

2016 Late season hit by torrential harvest rains gave lighter reds of variable quality that are approachable now.

2015 Hot, dry growing season gave effusive, engaging wines for early drinking. Drink to 2021.

2014 Spring frosts sent yields plummeting. Best wines are juicy and lifted. Drink to 2022.

2013 Late, rain-affected vintage. Bright, fresh wines of moderate

concentration. Drink through to 2019.

2012 Torrid heat. Drink up.

2011 A coolish year gave well defined, often excellent wines that are drinking well now.

2010 A long, dry growing season that gave some outstanding results. The best wines drink well now.

2009 Warm year, resulting in generous wines. Drink up.

The results

Disappointed with the quality on show from Carmenere’s Colchagua heartland, our panel found plenty of promise and much to discuss in other regions, says Tina Gellie

THE TWO SIDES of the Carmenere coin certainly showed themselves in this tasting. Our experts were at once excited about its potential in Chile, but disappointed by the mediocrity of many examples – particularly from the variety’s heartland.

‘Carmenere was once Chile’s flagship in the same way that Malbec is for Argentina,’ said Patricio Tapia. ‘But about 10 years ago Wines of Chile decided that diversity was the key and Carmenere was sort of forgotten. Meanwhile, in Argentina, they continued to experiment with Malbec: planting it at higher altitudes; in the north; in the south... So Chilean producers are still far from knowing all the various expressions or possibilities.’

Alistair Cooper agreed, saying that because the focus moved away from Carmenere, ‘I’m not sure it can ever be Chile’s signature variety, and that’s because it is extremely site-specific when compared to Malbec which does well almost everywhere in Argentina.’

Cooper said Colchagua is the ‘spiritual home’ of Carmenere, but in this showing the region fared poorly. Peter Richards MW elaborated: ‘The sea of mediocrity from Colchagua was the low point in this tasting. There was a blandness, a conformity and a dullness to many of the wines that is a product of overly warm-climate winemaking.’ He said Carmenere needs a long growing season but not a warm climate, which would allow producers to get the elegance they were currently trying to manipulate through acidification.

The tasting highlighted two standout regions: Maule and Maipo, where the diurnal temperature differences tempered the ripe fruit and added much-needed minty elegance, brightness, freshness and complexity. Richards commented on the diversity on offer from these regions: while many wines polarised the tasters, ‘that’s a good sign as it showed they appealed to a variety of palates and were pushing the boundaries’.

Cooper said while there were several nuanced 100%

‘Carmenere needs its obsessives and pioneers to push the boundaries and see what it can do’ Peter Richards MW

varietal wines, he felt Carmenere was best as a blending grape, needing 5% to 20% of one or more partners. ‘One of the standouts was a blend with Cabernet Franc,’ he said. ‘It might be counterintuitive, but the perfume and pyrazine greenness of these two herbal grapes worked brilliantly together.’ Tapia agreed and said growers should no longer fear pyrazine characters, and realise that picking earlier can give excellent results. Other successful blending partners were Syrah (giving spice) and Petit Verdot and Malbec (florality).

In terms of vintages, Cooper felt the few 2016s on show – from a cool vintage – were attractive, boding well for the future and would likely surpass the warm-vintage 2015s that made up the majority of wines tasted. ‘Carmenere is not a variety that is massively long lived,’ he added. ‘We didn’t taste many more than 10 wines that would be drinking better in 2020 than they are now.’ Tapia agreed and compared them to Loire Cabernet Francs for their tannin structure, green pyrazine notes and perfumed lift that were best appreciated within five years of release.

‘There is this worrying notion that Carmenere is a second-division variety that doesn’t have the potential for greatness,’ said Richards. ‘That is wrong. It can be great, but Carmenere needs its obsessives and pioneers to push the boundaries and see what it can do – like we’ve seen in Chile already with Pinot Noir.’

‘On the whole,’ he concluded, ‘the wines are better than they’ve ever been, but we’re seeing just the first hints of what could be a Carmenere revolution with the right people driving it.’

Cremaschi Furlotti, Single Vineyard, Loncomilla, Maule Valley 2015

Decanter average score: 96/100pts **Individual judges’ scores:** Alistair Cooper 95 Peter Richards MW 96 Patricio Tapia 96

£13.99 (2013) Ministry of Drinks, Simply Wines Direct
Here in the heart of the Maule valley, it rains more (750mm) than areas further north such as Maipo, and the temperature variation between day and night is particularly pronounced. Cremaschi Furlotti’s single-vineyard bottlings come from the best grapes grown on its Peñasco vineyards’ alluvial and volcanic soils. The wine is aged 50% in new oak, with the other half split equally between second- and third-use barrels.

Alistair Cooper Vibrant floral nose, lively Morello cherry and cassis flavours, enriched by a peppery spiciness. Firm backbone of tannin.

Peter Richards MW An enticing nose of rich, dark fruit expanded by medicinal and wild herb aromas, leading to a juicy, grippy palate with an engaging wild edge. Dares to be different – really like this!

Patricio Tapia Full and rich, herbal and leather-infused red fruit, well-proportioned yet soft tannins. Seductive, creamy-textured finish.

Casa Donoso, Sucesor, Maule Valley 2013 95 AC 94 PR 95 PT 96

£33 Shawbury Vintners
Originally established at the historic La Oriental estate in 1987, Casa Donoso has gradually grown to encompass four vineyards in Maule, totalling 710ha. This has included expansion south into San Javier, and another 472ha in San Vicente to the north. A blend of 80% Carmenere and 20% Malbec, this spends 24 months in French oak. Overseen by winemaker Felipe Ortiz, the Sucesor range has been developed to offer a range that’s stylistically different to Casa Donoso’s other bottlings.

AC A very drinkable style, with pronounced dark, wild fruit aromas leading to a cassis-drenched palate that unfolds onto a distinctly minty-fresh finish. Attractive and harmonious.

PR Hard not to like this. A lot of wine here, intelligently blended, with juicy, fresh yet rich dark fruit propelled by fine, grown-up tannins.

PT Brimming with black fruit, this is a beautifully voluptuous example.

William Fèvre Chile, La Misión Gran Reserva, Maipo Valley 2013 96 AC 95 PR 97 PT 95

£15 Exel
William Fèvre is a name long synonymous with Chablis, and the origins of this estate lie in his search for land beyond France, suitable for the production of high-quality Chardonnay. This led him at last to the door of Victor Pino Torche, the owner of a farm in the hamlet of San Juan de Pirque, Chile. Today it is managed by Victor’s youngest son Gonzalo, with winemaking done by Felipe Uribe and input from the well-known consultant Pedro Parra. With fruit from nearby San Luis de Pirque, this is 89% Carmenere with Cabernet Sauvignon, aged in oak for 12 months.

AC Effusively perfumed, with a lifted yet structured palate of enticing, tobacco-toned berry fruit widened by well-managed tannins. A lovely example of Old World meeting New World – bravo!

PR Attractive hints of maturity, with dried red berry fruit accompanying notes of tobacco amid an alluring herbal freshness, while fine, elegant tannins deliver complexity without heft. Long, stylish and classy.

PT Pretty, delicate and tightly wound, with a superb balance.

Fèvre’s other Outstanding wine in this tasting is similarly sourced from the old Maipo riverbank terraces of San Luis de Pirque, on permeable soils with good drainage. In this case though it is the turn of Cabernet Franc to play the supporting role, making up 8% of the final blend. Harvested in the first week of May, this saw slightly less oak, with 80% of the wine aged in barrel for a total of eight months and the remainder kept in tank, to give a juicier element to the wine.

AC Pretty aromatics with herbal and garrigue scents. Very Carmenere on the palate, with supple tannins engraved by an exquisite floral character and enlivened by bright and finely poised acidity. Excellent.

PR Graceful black fruit aromas lead to a juicy, rounded and succulent palate with abundant length and elegance – beautiful stuff.

PT A medium-bodied, focused and refreshing style, with an attractive herbal edge to the fruit.

Viña San Esteban, In Situ Reserva, Aconcagua 2016	88	88	87	90	A fruit-driven, lighter style, dark fruit aromas introducing a juicy, rounded palate, propelled by lively acidity and gentle tannins through to the finish.	13.5%	2017-2019	£10.50	Widely available via UK agent Delibo
Antiyal, Maipo Valley 2014	87	88	87	86	Restrained aromas of red berry fruit with polished herbal-edged flavours, in a fairly extracted style yet with decent varietal character, if a tad short.	14.5%	2017-2020	POA	Vintage Roots
Araucano, Reserva, Colchagua Valley 2016	87	87	87	86	A soft, pleasant and quaffable style, with minty, herbal black fruit aromas and flavours and some sweetness of fruit. Decent for its style.	13.5%	2017-2019	£9.70	Georges Barbier
Carmen, Winemaker's Reserve Black, Apalta, Colchagua 2013	87	89	87	86	A winter warmer in style, with spice-laden prune and fig aromas ceding to a sweet and brooding palate, and an oak-toned dark chocolate finish.	14%	2017-2019	£19.99	Ocado
CyT, Marqués de Casa Concha, Peumo, Cachapoal Valley 2015	87	88	86	87	Full and rich, yet restrained and approachable, with sweet and sleek dark berry fruit accompanied by notes of roasted coffee, herbs and dried flowers.	14%	2017-2020	£12.99	The Drink Shop, Uvinum
Errazuriz, Aconcagua Alto, Aconcagua Valley 2015	87	86	86	89	With an easy-going appeal, polished blackberry aromas lead to a juicy palate rich in black fruit, tempered by firm acidity on the finish.	14%	2017-2019	£18-£21.70	Cheers, Dulwich Vintners, Penistone Court Wine Cellars
Errazuriz, Max Reserva, Aconcagua Valley 2015	87	87	84	89	Straightforward, frank nose of creamy dark fruit. Lively and attractive with pleasant juicy fruit – almost a 'vin de soif' but with structure.	14%	2017-2019	£13-£16.05	Amazon, Dulwich Vintners, Ellie's Cellar, Vino Wines
Falernia, Gran Reserva, Elqui Valley 2015	87	88	87	85	Youthful and tense but promising, with food needed to tame firm, drying tannins and dark, resinous, treacly fruit. Fine, if not super-varietal.	15%	2017-2018	POA	Enotria&Coe, Great Western Wines
Junta, Grand Reserve, Curicó Valley 2015	87	88	85	89	Alluring aromas of tobacco, cream, baked plum unfold onto a soft palate of leather and liquorice-infused red fruit, underpinned by well-managed tannins.	14%	2017-2020	N/A UK	www.juntawinery.com

My top three

Alistair Cooper

■ **William Fèvre Chile, La Misión Reserva Especial, Maipo Valley 2015** What stood out here was the brilliant addition of Cabernet Franc, which helps to give an elegant and floral expression of Carmenere. Brightness, fine-grained tannins: fantastic! **95 Drink** 2017-2020

■ **Cremaschi Furlotti, Loncomilla, Maule Valley 2015** A winery that continues to impress. Muscular style with firm, beautifully structured tannins, and it has the signature Maule freshness and vibrancy. **95 Drink** 2017-2021

■ **Casa Donoso, Bicentenario, Maule Valley 2015** Superb, refreshing, subtle style with delicate aromatics. The key is the acidity, freshness and tension which can be hard to get right with Carmenere. Bang on. **94 Drink** 2017-2019

My top three

Peter Richards MW

■ **William Fèvre Chile, La Misión Gran Reserva, Maipo Valley 2013** Grown at altitude and made with real restraint, Fèvre's Carmeneres tend to be elegant and food-friendly. This one's super classy: savoury and linear, with delicious maturity. **97 Drink** 2017-2021

■ **Las Niñas, Reserva, Apalta, Colchagua Valley 2016** This elegant, insistent style defies the stereotypes. Apalta is usually all about big, rich wines, but this is a study in delicacy, inviting contemplation of the earth, such is its mineral power. **94 Drink** 2017-2019

■ **Echeverria, Gran Reserva, Curicó Valley 2014** My fellow tasters didn't rate this edgy, tangy, smoky style as much as me – but I couldn't bear to see it lost in the mix. **93 Drink** 2017-2018

My top three

Patricio Tapia

■ **Cremaschi Furlotti, Loncomilla, Maule Valley 2015** With its granite soils and generous sun, Loncomilla is one of Chile's best sources for Carmenere. A good example, this has flavours and aromas of black fruits and delicious notes of herbs and spices. **96 Drink** 2017-2021

■ **Casa Donoso, Sucesor, Maule Valley 2013** From a dry-farmed vineyard in Loncomilla, this is blended with 15% Malbec. Voluptuous flavours of ripe fruits, and enough nervy acidity to give balance. **96 Drink** 2017-2019

■ **Ventisquero, Queulat, Maipo Valley 2015** Towards the coastal zone of the Maipo, in Trinidad vineyard, the influence of the Pacific produces reds that are fresh and alive. This is a good example: strong, firm acidity, notes of vibrant red fruits and a medium but tight and tense body. **95 Drink** 2018-2021

NB: the tasters' top wines are not necessarily their top-scoring, rather those which, on learning the wines' identity, they feel are the most notable given their provenance, price or other factors
